WILSON'S VETO OF IMMIGRAT BILL ENDS MEASURE FOR YEARS

Unlikely There Will Be Another Attempt at Legislation **During His Term**

By C. S. ALBERT.

WASHINGTON, D. C., Feb. 5 .- The definite burial of the obnoxious immigration bill was accomplished by the house with comparative ease. The recorded vote indicated five less than the two-thirds required to make the measure a law despite President Wilson's veto. Although a trifle close for comfort this was ample for all practi- AN EASY WAY TO GET

A careful poll of the house was taken four days before the immigration bill came up for final action, showing ing the President. At that time there bers absent. These inand Far West, all favorable to retaintional is features. Many of these are your digestive tract.

tain no attempt will be made to pass similar legislation during the remain-der of the President's administration. It is certain he would veto another bill and the Democratic majority in the next house will be materialy less than at present. It is unlikely fur-ther efforts will be made in the direc-tion of restricting the admission of allens through educational tests while Mr. Wilson remains in the White House. That course was followed when Presidents Cleveland and Taft

vetoed measures of the same kind

The trouble with most thin folks nounced that the speeches made by who wish to gain weight is that they the Republican senators during their insist on drugging their stomach or fight against the bill had cost over stuffing it with greasy foods; rubbing \$600,000 in printing bills and stenograon useless "flesh creams," or following phers' fees. Senator Burton's speech. some foolish physical culture stunt, which lasted more than 13 hours, had while the real cause of thinness goes cost \$250,000, he said; that of Senator untouched. You cannot get fat until Lodge \$150,000; that of Senator your digestive tract assimilates the linger \$200,000, and that of Senator

against the passage of the bill and he resigned from the house. He had been elected to a local office and was held ineligible to continue service.

It is regarded as certain that the senate would have speedily passed the bill over the President's veto, the former votes standing more than 4 to 1 in favor of the literacy test. As it stands action by the house is final. pass them into the blood, where they are carried to every starved, brokendown cell and tissue of your body. You can readily picture the result when this amazing transformation has been in addition, it seems certaken place and you notice how your cheeks fill cut, hollows about your neck, shoulders and bust disappear and you take on from 10 to 20 pounds of solid, healthy flesh. Bargol is absolutely harmless, inexpensive and efficient.

REASON FOR EMBARGO

WASHINGTON, D. C., Feb. 18 .-Mayor Mitchell of New York, acknowledging the receipt of the report of the New York commission which has been investigating the reason for the high cost of food supplies, the report urging upon the President legislation to permit the application of a 90-day embargo on the exportation of wheat, says that no danger of a wheat shortage

appears to exist The President states that a general risunderstanding regarding the country's food supply exists, to correct which a government statement of the actual conditions will be issued at an early date.

This statement, the President writes, will reassure the nation,
